

Saddle Club

Otahuna Horse Riding

Build a Bond Beyond Belief

This is a six week riding programme run once a week for 2 hours. The programme offers an excellent opportunity for young riders to develop horsemanship, confidence, riding skills, handling, and horse care while enjoying friendship and fun in an organised safe environment

This programme is as close as we can make it to the rider having their own pony. It offers young riders, a comprehensive, safe, and rewarding learning experience with one horse they can adopt as their own. Participants learn to care for and gear up their own horse. They learn how horses think, how to be safe around horses, how to build rapport, leadership and communication with their chosen horse. Indoor lessons with teaching on horse husbandry is arranged in bad weather. We enroll four to six participants per group. These events are suitable for children, 5-15 years, of all levels from complete beginners to experienced riders.

Holiday activities including families is offered following each 6 week programme.

WHO - A number of guides are available to teach saddle club.
